Second Floor

An unofficial advisory group included Southwest archaeologist Emil Haury of the Arizona State Museum, Tucson; Harold Colton, founder of the Museum of Northern Arizona, Flagstaff; Frederick Webb Hodge, director of the Southwest Museum, Los Angeles; Frederick H. Douglas, curator of Native arts at the Denver Art Museum; and Rene d'Harnoncourt of the Museum of Modern Art, New York.

Allie BraMé with archaeologist Erich F. Schmidt c. 1930. BraMé retired in 1944.

Tred Nabuhr.

**Press Is Winner**  
after the soldiers of Russia took it over in 1918. A Catholic priest administering the last rites to a dying man was himself shot to death while in the act.

Germany is equally destructive in its policy. Mein Kampf, the only book that may be worshipped in the name of Hitler, is the only book that may be worshipped in the name of Hitler. The objects that may be worshipped in the name of Hitler are more numerous than an intelligent animal and death ends all.

**Strife Grows In Rumania**  
BUDAPEST, Nov. 23.—(INS)—Increasing internal trouble—with internecine strife taking the lives of at least a score of persons—may spread a new wave of terror through the Rumanian public.

Prof. Ion Codreanu, father of the slain former Iron Guard leader, Cornelius Codreanu, has been committed to an insane asylum, and 16 of his friends have been secretly executed for plotting a raid on Iron Guard headquarters, according to information received here. All 16 were veteran Iron Guardists, who apparently turned against the organization.

Three Iron Guard wardens of the Bucharest military prison were arrested tonight for attempting to release Ion Gabriel Maripescu, former chief of the secret police. Taken to police headquarters, one Iron Guard leader leaped from the fourth floor and was killed. The second committed suicide with a gun. The third was found in a lamp post in front of a police building with a sign that reads "USE."

**USE**  
It was only when the film "The Strife in Rumania" was shown that the audience would have known as much of the word's most dangerous rivers.

**Perils Told By Film**  
The stirring waters of the Colorado and the tumbling and buffeting of the audience felt they had taken the trip had taken the danger into which the life-long ambition to travel the length of the Colorado settled 80 years ago. Mr. Goldwater said it out of his system for the first summer's experience, he trip were constructed by the men in an "old fashioned" way.

**Barry Goldwater To Speak On Hazardous River Trip**  
Barry M. Goldwater, prominent Phoenix businessman and student of the University of Arizona, will present an address, "A Journey's River," at the Heard Museum, 22 East Broadway, at 8 o'clock Friday night.

The first public lecture dealing with the movies, the river rapids, and the trip has been given by Mr. Goldwater at the Heard Museum, 22 East Broadway, at 8 o'clock Friday night.

**Packed Houses To Hear Lectures**  
All tickets for the Barry Goldwater lectures have been sold out.

**Goldwater Lecture Enthralls Audience At Heard Museum**  
For nearly two hours, last night, the lecture room of the Heard Museum was packed with an audience of men, women and children. Barry Goldwater, prominent Phoenix businessman and student of the University of Arizona, presented an address, "A Journey's River," at the Heard Museum, 22 East Broadway, at 8 o'clock Friday night.

**Crowd At Heard Museum Hears Talk By Goldwater**  
The weaving legend and the start of the river rapids were the two most interesting parts of the lecture. The story of the river rapids was told in a way that made the audience feel they had taken the trip.

**COURT MARKLE**  
Lest W. Miller  
HAVE MONEY—SHOP WIRE
